

## HYPER CONCENTRATE FLOOR STRIPPER LOW ODOR

*SC Johnson Professional*<sup>®</sup> Hyper Concentrate Floor Stripper is a high performance concentrate for fast, efficient removal of most water-based polymer floor finishes. Low odor, non-ammonia, non-butyl formulation enables floor stripping procedures virtually anytime, anywhere without disruption to facility operation. For use on a variety of flooring types such as vinyl composite, vinyl asbestos, 100% sheet vinyl, terrazzo, rubber, granite, brick and slate.

For best results use along with *SC Johnson Professional*<sup>®</sup> Heavy Duty Neutral Floor Cleaner Concentrate and *SC Johnson Professional*<sup>®</sup> Multi-Surface Floor Finish.

### HIGH PERFORMANCE AND EFFICIENCY

- Fast acting low odor formula quickly attacks multiples layers of old finish.
- Delivers one-pass removal of 10 layers of *SC Johnson Professional*<sup>®</sup> Multi-Surface Floor Finish Plus Sealer at 1:24 dilution rate.\*

### COST CONTROL

- Portion dose packaging and hose end filler help control proper dilution rate assuring proper efficacy and cost control.
- Hyper concentrated formula requires less storage space than conventionally formulated packaged products.

### VERSATILE

- Powerful hyper-concentrated formula can be diluted 1:8 to 1:24 to match stripping performance to difficulty of task.

\*When used as directed.

## AVAILABLE PRODUCTS

PRODUCT CODE	PACKAGE SIZE DESCRIPTION	DILUTION RATES
680078	6 x 32 oz. (946mL) Quart	1:8 - 1:24
680076	1 x 2 GAL (256 FL OZ) 7.57 L Bag In Box	1:8 - 1:24
684499	2 x 2 L (67 FL. OZ.) TruFill™	2 L of concentrate = Up to 11 in-use gallons
684497	2 x 2L (67 FL OZ) TruFill™ (plus 1 dispenser)	2 L of concentrate = Up to 11 in-use gallons

## USE INSTRUCTIONS

Place proper warning blockades around area to be stripped.  
**(Note: Floors will be slippery when stripper is applied. Use extreme caution. Promptly clean up spills and foreign materials. Follow proper safety procedures to prevent slips/falls.)**

### DO NOT USE UNDILUTED

#### Application:

- 1. Place Proper Blockades:** Floors will be slippery when stripper is applied. Use extreme caution.
- 2. Mix Stripper Solution:** Reference dilution table below for proper dilution rates. **Apply** liberal amounts of stripping solution uniformly to the floor. **Wait** 5 -15 minutes for stripping solution to work, re-wet as necessary to loosen finish. **For optimal results; after 5 minutes, mop agitate to loosen finish.** (Longer dwell times may be necessary for extreme build-up.)
- 3. Strip & Remove:** Strip floor using an edging tool, loosen old finish near baseboards and in corners. Agitate manually with a mop or machine scrub the floor with black or appropriate stripping pad or stripping brush.
- 4. Rinse & Dry:** Pick up stripping solution with a mop & bucket, wet vacuum or automatic scrubbing machine. Add water to floor occasionally to aid solution pickup. Thoroughly rinse floor with clean water using mop and bucket to assure complete removal of the old finish. Let floor dry completely before applying finish.

#### INCOMPATIBLE MATERIALS

Do not mix with strong acids, bleach or any other cleaners.

## SAFETY PRACTICES TO FOLLOW

It's good business practice to assure that your employees have read and understood the product labels and Safety Data Sheet before using this product. The label use directions and SDS contain important hazard warnings, precautionary statements and first aid procedures. This information is available on-line at [www.scjohnson-professional.com](http://www.scjohnson-professional.com) or by calling 800-294-3632. Wear personal protective equipment, chemical-resistant gloves and chemical splash goggles, when dispensing concentrates. Improper mixing or diluting of concentrate may damage surfaces and may result in physical harm to the user matching those of the concentrate.
