

EZ CARE HIGH SPEED CONDITIONING AND POLISH PAD

PROPRIETARY CONSTRUCTION SMOOTHS AND CONDITIONS FLOORS - AMPLIFIES THE APPEARANCE OF THE FINISH, REDUCING THE NUMBER OF COATS NEEDED. ACHIEVING AN ACCEPTABLE LEVEL OF SHINE WHILE SAVING TIME AND LABOR COSTS.

Creates a smooth bare floor that allows the EZ CARE Floor Coating to glide on with ease. This patent-pending pad smooths and conditions the bare floor with a unique abrasive technology which helps amplify the gloss of the EZ CARE Floor Coating.

DETAILS: Prepares the floor for application of EZ CARE Floor Coating resulting in a high gloss shine

- Achieves an acceptable level of shine while saving time and labor costs
- Suitable for multiple substrates - confidently and safely used with UHS equipment without damaging the substrate
- Improves the condition and appearance of the floor over time - with continued use before applying finish
- Use dark gray side of pad to polish floors
- Covers up to 50,000 sq. ft. per case before replacing

PRODUCT CODE	DESCRIPTION	SIZE	CASE QTY
311182	EZ CARE High Speed Conditioning and Polish Pad	20"	2
311184	EZ CARE High Speed Conditioning and Polish Pad	27"	2

Application	Floor Polishing and Preparation Pad
Brand	EZ CARE
Center Hole Diameter	Yes, 3"/7.62cm
Color	Multi-color
Machine Speed	1500+ RPM
Material	Made with a proprietary blend of abrasives and resin
Overall Diameter	20" / 27" 50.8cm / 68.58cm
Overall Thickness	1" / 2.54cm
Product Color	Light Gray top / Dark Gray Bottom
Product type	Floor Polishing / Buffing Pad
Recommended surfaces	Vinyl Composite Tile, Vinyl Asphalt, Terrazzo, Concrete
Shape	Round
