

# InstantFOAM™ Complete *PURE*

The Complete Solution for Hand Sanitizing

# A World First Innovation

InstantFOAM™ Complete <sup>PURE</sup> is an innovative sanitizing solution for bacteria, fungi and yeast.

Using patented Foaming Technology™ the unique perfume-free & dye-free alcohol-based liquid is dispensed as soft-structured foam. InstantFOAM™ Complete <sup>PURE</sup> is formulated with 80% ethyl alcohol (w/w) for optimal broad spectrum efficacy. It is designed to be used without water, combining both safety and preference.

## Invisi-Feel™

InstantFOAM™ Complete <sup>PURE</sup> leaves hands feeling clean without a residue or sticky after-feel on the hands, even when used frequently:

- No tacky film left on hands
- No polymer build-up
- No tightness of skin immediately after use

## Ideal for use in multiple areas

The product is ideal for closed or semi-closed quarters where **hand hygiene** is critical, such as **cruise ship** and **long-term care** facilities.

Also suitable for use in all **food handling** and **food processing** environments where a higher level of hand hygiene is needed to reduce the risk of cross contamination.

**Ideal for use in all areas to prevent the spread of many types of common germs.**

# Efficacy

## Broadest spectrum of activity:

- Proven to eliminate up to **99.9999% of 58 species of bacteria, yeast and fungi in 15 seconds\***

Complies with international test standards: ASTM E2783-11 (in vitro test with 58 microorganism species), EN1500 (in vivo bactericidal), EN12791 (in vivo bactericidal - surgical rub), EN1276 (in vitro bactericidal), EN13624 (in vitro yeasticidal & fungicidal), EN13727 (in vitro bactericidal), EN14476 (in vitro virucidal: poliovirus type 1, adenovirus type 5, murine norovirus - as a surrogate of human norovirus), Severe Acute Respiratory Syndrome-related Coronavirus 2 (SARS-CoV-2) (COVID-19 Virus), strain: USA-WA1/2020, EN1650 (in vitro yeasticidal & fungicidal), EN14348 (in vitro tuberculocidal), ASTM E2011-13 (in vivo virucidal: murine norovirus - as a surrogate of human norovirus, Rhinovirus Type 14)

# Preference

Unlike with liquids, foam does not run off the hands and provides the user with complete control of the product without dripping or splashing, ensuring the full dose is applied effectively with every application. Compared to gels, InstantFOAM™ Complete <sup>PURE</sup> does not contain gelling agents and leaves no residue on the skin - it's the Invisi-Feel™ result.

**"84% of users prefer foam to gel due to being non-sticky and fast drying" \*\***

InstantFOAM™ Complete <sup>PURE</sup> incorporates moisturizers to leave the skin feeling smooth and refreshed after use, helping to avoid skin dryness which can be associated with use of some sanitizers in high frequency usage settings.

# Sustainability

This product is USDA Certified Biobased and contains 95% USDA certified biobased content. The USDA BioPreferred Program® is a voluntary initiative to provide assurance that product contains a certified amount of biobased ingredients are third-party tested and verified and monitored by the USDA. The USDA Certified Biobased Product label is a certification mark of the U.S. Department of Agriculture. For more information, visit BioPreferred.gov.

This product is certified to meet EcoLogo UL 2783 Standard for Instant Hand Antiseptic Products. EcoLogo certifications are voluntary, multiattribute, life cycle based environmental certifications that indicate a product has undergone scientific testing, auditing, or both, to confirm its compliance with such standard. EcoLogo UL 2783 Standard sets criteria for product formulation and manufacturing, and human health & environment toxicity. For more information and to view the specific standard, visit UL.com/EL.

# Safety

InstantFOAM™ Complete has been carefully formulated with safety in mind.

## Skin Hypoallergenic

Dermatologist tested to verify and confirm this product has very low allergenic potential and is designed for sensitive skin.

## Non-Drying Formula

Independently tested and proven to maintain skin moisture to help keep the skin in good condition, even after frequent use.

## NSF E-3 Rated

This product is acceptable for use as a hand sanitizing product (E3) in and around food processing areas.

## Compatible with gloves

Independently tested to prove the product can be applied to hands prior to wearing latex, vinyl and nitrile gloves without effecting material integrity.

\* Test Report BSL150826-201: An evaluation of the antimicrobial properties when challenged with 58 micro-organism species using in-vitro time kill ASTM E2783-11 method.

\*\* Independent research Commissioned by SC Johnson Professional\*
