ATTACK BUGS, CONTROL BUGS & PREVENT BUGS

Raid Defense System helps you work smarter, not harder, to fight bugs. Visit raidkillsbugs.com to identify your bug and best treatment plan.

KILL BUGS ON CONTACT.

Raid® Ant & Roach Killer 26 kills ants, roaches and other listed bugs on contact and keeps killing with residual action for up to four weeks. Avoid spraying near baits to make sure bugs can bring the bait back to where they hide. Read label before use. Use only as directed.

KILL BUGS AT THE SOURCE. KILL THE BUGS YOU DON'T SEE.

Use a Raid® Ant or Roach Bait product to kill ants or roaches where they hide. For heavy infestations, first use a Raid Fogger or Fumigator product and then place baits to provide ongoing control. Read the label to find the right product for your bug problem. Read label before use. Use only as directed.

HELP KEEP BUGS OUT.

Use a Raid® Max Bug Barrier product to help keep ants and roaches and other listed bugs out of your home. Or, spray this product along baseboards, inside cracks, and behind appliances. Do not spray surfaces with more than one pest control product. Read the label to find the right product for your bug problem. Read label before use. Use only as directed.

RAID® ANT BAITS III

Raid® Ant Baits III kill ants for up to three months. After ants feed on the bait, they return to the colony and transfer the bait to the queen and the others, thereby killing the entire colony. The adhesive backing secures the baits under countertops and on walls. Raid® Ant Baits III are child-resistant. Read label before use. Use only as directed.

KILLS: Ants

RAID® ANT & ROACH KILLER 26

Raid® Ant & Roach Killer 26 kills on contact and keeps killing with residual action for up to four weeks. It leaves no lingering chemical odor.
