SANITISER

FORMAT: **FOAM**

KILLS 99.99%
OF MANY
COMMON
GERMS

INSTANT
FOAM
ACTION

PERFUME-FREE
& DYE-FREE

PRODUCT DESCRIPTION

Alcohol Free Foam Hand Sanitiser that kills 99.99% of many common germs, while maintaining the skin's natural pH balance.

WHERE TO USE

For use in areas of Healthcare where alcohol is considered a risk e.g. mental health and elderly care facilities as well as organisations operating in high risk areas or where alcohol is not appropriate such as prisons and education facilities.

WHEN TO USE

Healthcare environments – use hand disinfectant as per the World Health Organisations “5 Moments of Hand Hygiene” recommendations.

Food handling environments – use hand disinfectant as recommended by HACCP risk assessment.

General hygienic use – use hand disinfectant after coughing, sneezing, contact with body fluids or touching potentially contaminated surfaces.

HOW TO USE

For general hand hygiene – apply 1-2 doses direct to clean hands and rub across all parts of the hands.

For hygienic hand disinfection (according to the EN1500 standard) - apply 5ml twice consecutively and spread across all parts of hands for 30 seconds each (a total 10ml over 60 seconds).

FEATURES	BENEFITS
Broad spectrum activity	Highly effective formula kills 99.99% of many common germs and is tested and proven to be bactericidal, yeasticidal and virucidal against all enveloped viruses.
Pleasant to use	The rich foam is extremely pleasant for frequent use in-between hand washing, encouraging maximum compliance.
Alcohol free	For use in areas where alcohol is considered a risk or is not preferred e.g. mental health and elderly care facilities, food manufacturing and prisons.
Perfume-free and dye-free	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
Instant foam action	Rapidly and easily rubs across hands, providing the user with complete control of the product, preventing the dripping and splashing associated with using liquid sanitisers.
Does not contain gelling agents	Unlike gel sanitisers, the product does not contain gelling agents that leave the hands feeling sticky, particularly after multiple use.
No water required	Dries on hands without the need for rinsing with water. Ideal for use at the point of care.
Convenient	Available in a range of sizes for use in different healthcare, workplace and public environments.

Cutan® ALCOHOL FREE FOAM

HAND SANITISER

STATUTORY REGULATIONS

This product meets the current national regulations for Biocidal products.

SAFETY DATA SHEETS
