## THE MAIN **BENEFITS...**

### ULTIMATE PRODUCT LEVEL **VISIBILITY**

The Transparent Antibac Dispenser allows the user to quickly and easily identify information within the drug facts table, making it compliant with Health Canada regulations.

The Transparent Antibac Dispenser brings ultimate product level visibility for easy maintenance. The transparent design enables the fill level to be instantly and accurately visible from any angle. This reassures users that product is inside the dispenser; and helps staff know when cartridges need changing without opening the dispenser, to save time and cut maintenance costs.
