

## GETTING STARTED

- Step 1:**
- Place proper blockades.
  - Gather all equipment.

## MAINTENANCE AND CLEANING

- Step 1:**
- Use a floor scraper to remove any gum or foreign objects stuck to the floor.

- Step 2:**
- Dust mop or sweep area needed to be maintained.

## AUTO SCRUBBER INSTRUCTIONS

- Step 1:**
- Fill the tank using SC Johnson Professional® Multi-purpose Heavy-Duty Neutral Floor Cleaner concentrate.

- Step 2:**
- Install the EZ Care Heavy Duty Scrub pad on the auto scrubber and clean the area.

- Step 3:**
- For best results after auto scrubbing, trail mop using a clean mop and diluted SC Johnson Professional® Heavy Duty Neutral Floor Cleaner solution in the mop bucket to clean corners, edges, and hard to reach areas.

## MOP AND BUCKET INSTRUCTIONS

- Step 1:**
- Fill bucket using SC Johnson Professional® Heavy-Duty Neutral Floor Cleaner concentrate according to the label.

**Step 2:**

- Clean the area with a clean mop, changing the cleaning solution when the bottom of your bucket is no longer visible.

## BURNISHING

- Step 1:**
- Install approved burnishing pad on the burnisher.

**Step 2:**

- Change your pad as needed; burnishing with a clean pad is essential to proper maintenance.
- Inspect the pad often to assure there hasn't been any debris picked up and held in the pad.

**Step 3:**

- Dust mop entire area with a clean dust mop after burnishing.
