- ◆ Provides almost three refills (2.8 to be exact) for the 10 oz pump
- ◆ Made with 50% recycled plastic. Designed to be recycled again.

AntiBac Toilet Cleaner: Use product as a toilet bowl cleaner, toilet seat cleaner and to clean under the rim and disinfect. This germ buster uses ingredients like citric acid to eliminate bacteria, dirt and germs* on hard, non-porous surfaces when used as directed. Cleaning Instructions: To clean and deodorize: Twist nozzle to on-or-twist to open. Spray-or-squirt product under rim and cover the inside of the toilet bowl evenly. Wait 10 minutes for product to do its thing. Brush. Flush. Sanitizing Instructions: To kill 99.9% of bacteria on hard, non-porous surfaces: Empty toilet bowl, squirt product under rim to cover surface. Wait 5 minutes, then brush and flush. Disinfecting Instructions: To disinfect: empty toilet bowl of water and any other contents, squirt product to cover surface. Wait 10 minutes, then brush and flush. First Aid: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor. Directions for Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For heavily soiled areas a pre-cleaning step is required. Storage and Disposal: Nonrefillable container. Store airtight at room temperature. Do not reuse or refill this empty container. Offer empty container for recycling. If recycling is not available, discard in trash. EPA Reg. No. 75277-2. Always read label and product information before use.

*Influenza A Flu Virus, Staphylococcus aureus, Rhinovirus, Escherichia coli, Enterobacter aerogenes, and Salmonella enterica on hard, non-porous surfaces when used as directed.
